Two-sided win for travel-ready

I'm usually skeptical of beach gadgets, but this one feels genuinely useful with two sides on one brush. After surfing, I used the soft side on toes, then flipped to the firmer side for bag bottom. It helped around the edges where sand hides.

Flip-side brush for snorkel gear

We finished our beach day and did a quick two-step: gentle side for backs of calves, tougher side for snorkel gear. It worked best when we used it immediately, before sand migrated everywhere

## **Mitch Band**

Car friendly

The convenience is real, one brush that switches from skin to gear. Never used a beach brush before and I'm warming up to it.

## **Kelley Mollins**

Double-sided saver

This turned our end-of-beach routine into something faster and calmer with a flip-side design. After sandbar wading, the flip-side design kept things moving: backs of calves first, then a sunglasses case. We took turns fast and it kept things moving instead of turning into a mess. I keep it in my backpack now.

Two-surface solution for pack-up and kid-approved

It's the kind of practical thing I didn't realize I needed with two sides on one brush. I like that it's one brush that can switch roles instantly. After a lake dock day, I did the back of a neck with the smaller face, then turned it over for a beach cart handle. It cut down the sand that usually ends up all over the place.

Love this sand remover

After a beach run, the brush worked great! toes got the small side; the flip side was great to swipe off the beach chairs and my beach bag.

Sand is gone on my beach stroller

I bought it for my beach stroller. The wheels can turn into a sandy mess and now I can easily do a quick clean up before I get home. The sizing is perfect as I can keep it in the side pocket of the stroller. Highly recommend to all moms.

### Ron Garts

Dual-sided convenience

I live near the beach and I'm always active in beach sports. This brush helps the sand move away fast. I like that I can keep it neatly in the side pocket of my car. This is a great brush to have for anyone that likes going to the beach.

### Pauline Leeds

Bye bye sand

I'm usually skeptical of beach gadgets, but this one feels genuinely useful with two sides on one brush. We used it right after a picnic on the sand and it made the "leave the beach" moment smoother. We started using it on everything and there was literally nothing it did not clean. I like how this brush feels on my skin too.

### Cleo Robertson

Travel Friendly

The two-sided brush is made very well. It feels sturdy and the bristles feel good on skin. The storage bag is so cute and looks very stylish. The bag is even good to wipe off your phone or sunglasses since it is actually a lens wipe that has been turned into a bag. I would recommend this product for your next beach trip!

Sand over

Finally my beach sand problem is over. I would always spend so much time cleaning up and using towels and looking for water and now I don't need to. This brush has two sides and it gets the job done cleaning up all my gear and myself.

Beach wedding brush

We went a beach wedding and were out in the sand. The event planner left a box of brushes for everyone to take as a gift. Didn't think much of it at first but then after I had sand stuck all over my feet and wanted to put my shoes back on I was so happy to have this brush. It would not have been fun to have sand stuck on my foot and then putting it into a high heeled shoe. I definitely need to tell my friends about this one!

Best beach dog brush

My puppy loves this brush! He gets wet and sandy when we go to play at the beach. Now he does not resist at all when I use the brush to clean up his coat and definitely his paw. He knows the routine and this works out great to keep our car clean.

**Bonnie Furner**

pack-up easy

Beach day with the kids just got easier. It seems like every time we go to the beach the gear just explodes and we have more of it! By the end of the beach day there's a lot to clean up but the brush definitely makes it easy. I would recommend this to anyone that has sand to remove. The two sides also work well on various areas.

5/23/2025

**Ada Brooks**

Perfect for car mats

I love keeping this in my car. I live in Hawaii and I'm always at the beach. Any bits of sand I can leave behind keeps my car cleaner and I can also take out my car mats and give them a swipe and these brushes do the job.

Sand stop

I'm a person who likes everything to be super clean and orderly. I go to the beach every now and then and was given this brush as a gift. I feel like it works as it is supposed to and it does stop sand from getting everywhere. I did notice that the brush shed a little bit.

Perfect surfer brush

I head out to the beach a lot and often my surf gear has a sandy mess going on. I tried this brush and liked that I can brush the sand off my wet suit and my board and any other gear I bring. It's especially handy on the days I don't have access to any water to rinse off

### Willa Daniels

Dual Sided

I spend a lot of time paddle boarding. I use a pump to blow up my board so at the end of my activity there's often sand all over the board. Volleyball must have

My sister and I are volleyball players at the beach and Our dad got this for us! He is so happy now that we get in the car after practice we have cleaned off our shoes and our gear so he doesn't need to clean up the car anymore that's filled with sand. I would definitely say this brush is handy and so easy to clip on to our backpack with a carabiner since it has a string that closes the brush bag.

### **Anny Sinclair**

Works great on kids

Loved how this brush quickly cleaned up all my kids that were filled with sand all over. I was able to clean up their gear quickly as well and relieved from a sandstorm which usually happens by the time we are done at the beach. Cut my cleaning time in half.

### **Quinn Reynolds**

Works good but a bit small

The two-sided brush is the part that makes it work for us. I found that it works really well for the hand size of my wife but for me I find it to be a bit small. We both agree that it does get the sand off and is a handy item to have If you go to the beach.

### **Nora Jong**

Had higher expectations

This brush is OK but I found for some of the sand it was hard to remove. Perhaps it's just some of the stickier sand that it has trouble with. I was able to get some of the sand off but not all of it.

### **Blake Voxen**

Gentle and effective brush

This brush set is great. Not only does the brush feel gentle on skin while easily whisking the sand away it also works on other items as well. The bag is nice for me to clean my sunglasses with. This brush and bag is perfect for a beach trip or any other type of Adventure where sand is involved.

### **Madison Reyner**

Two sides on this beach brush

The idea of having two sides of different sizes on one brush is really great. I find this brush to be so handy when I'm trying to work on different surfaces to remove the sand and get the brush to fit properly. A lot of brushes only have one side so then if you want another size you have to carry another brush but this one does the job for me.

### **Andrew Herine**

Lives in the car

I'm always at the beach since I live near it. I enjoy exercising out there and there is always something that comes back with me with sand on it. Now all I need to do is just give a few whacks with this brush and all the sand is cleaned up right away.

3/12/2024

### **Charlotte Borrin**

Not so excited

I found this to be OK but it was not really what I expected. I felt that if the bristles were longer they could function better. It seemed like it took a long time for me to clean up. Maybe even if the brush was bigger that could make a difference as there would be more area. I can't say I hate it but just not my favorite.

Sandcastles and clean up

Our family loves to go to the beach and spend hours there building sand castles. We usually have a lot of gear as we set up for the entire day. In the past we would keep a lot of bottles of water in our car so when we would get back there we would start dumping water all over everything. Now most of the cleanup can get done with these brushes. I'm very happy with these and so is the family.

Handy brush and bag

This product is very interesting because not only does the main product which is the brush work really well it is housed in a bag that is also functional. The bag is special lens wipe fabric so you can wipe up your phone or your glasses or anything with a screen Most products don't have a bag that have any function at all but this was very smart. I'm very happy with this.

I'm usually skeptical of beach gadgets, but this one feels genuinely useful with two sides on one brush. After a day at the dunes, the soft/firm combo saved us from overthinking it. toes got the gentle side; a dry-bag zipper flap got the tougher side. It helped around the edges where sand hides—between straps, seams, and corners. This stays in the camp chair bag after stroller days.

Great find for my trip

We went on vacation and I bought this brush because we were in a friend's beach house. I was worried about bringing sand in there so I tried this brush and it worked like a charm. I was able to keep everything clean for myself and my kids cutting down any sand that we would bring inside. It was very easy to use and I like the quality of the wood

Simple sand brush

This is very well made and the bristles are gentle and soft. I like it because I know that I won't scratch my skin or even the seats in my car. I also use it for my handbag when I take it to the beach as sand sticks to the bottom sometimes. I like that there is no fuss to use this and one swipe usually gets all the sand off. Things like this that are so simple are way better than complicated gadgets.

Sand free experience

This works for me and remove sand from all my stuff and my feet.

Works great for the whole family!

I picked up this brush and brought it our beach camping trip. At first no one seemed interested but then when it came time to get things cleaned up and they saw me using it everybody wanted to use it. It's just one of those things that once you see and feel it in action you know it's going to work. Beach time so fun but sand cleanup has always been a pain. Now we don't have to worry anymore. As long as we have the brush we will be good.
